

## Information for Insurance Reimbursement

When you call your insurer, you should ask the following questions to best gauge your potential for reimbursement for medical services:

1. Does my policy cover Preventative visits and vaccinations if I use an out-of-network provider?
2. What can I expect for reimbursement if I use an out-of-network provider who charges the following for these codes:

**Preventative visits (not inclusive of vaccinations):**

House call visits (new pt)	99341-99345	\$225 per visit
House call visits (established pt)	99347-99350	\$225 per visit

**Urgent/Sick visits (not inclusive of testing and procedures):**

House call visits (new pt)	99341-99345	\$100-\$300 per visit
House call visits (established pt)	99347-99350	\$100-\$300 per visit

If they ask for provider name: Steven Martel, MD and/or Oded Herbsman, MD

If they state that we are “in-network” – we are not, in our capacity with Child’s Light Pediatrics. Our billing tax id number (26-0822642) will confirm this.

Some insurers will not reimburse you for vaccinations provided by an out-of-network provider despite the fact that many of our vaccine charges are significantly less than that of traditional practices. You may wish to check with your insurer to see what their reimbursement policy is. You will find a list of the current charges for many of the most common vaccinations given during the first 2 years of life.

Immunizations	E/M	ICD-9	Charge
DTaP	90700	V06.1	\$40
Hep A	90633	V05.3	\$45
Hep B	90744	V05.3	\$30
HIB	90645	V03.81	\$40
Influenza	90655	V04.8	\$25
IPV	90713	V04.0	\$40
MMR	90707	V06.4	\$85
Pneumococcal 13	90670	V03.82	\$160
